## Ruthvah

Practising Magicians of all paths swear by this perfume - and our blend has been found to be both delicious and particularly potent. For full aphrodisiac effect, rub well into the scalp. 5ml £3.50 15ml £7.95

## Kyphi

This is possibly one of the most ancient incenses known, it was famously used in the Egyptian Temples as a perfume 'welcome to ye Gods' (according to Dioscorides), as an incense, as a medical preparation, and was sprinkled over offerings to make them acceptable and holy to the Gods. It can be combined with other incenses to create a particularly potent blend both to draw the attention of the Gods and thereby ensure the success of your rituals. Several different recipes are known, both from ancient writers and from recipes inscribed on the walls of the Temples of Egypt—in Egypt every Temple had its 'laboratory' where sweet smelling incense, oils and unguents were prepared for use within the sacred walls.

Our recipe combines the best of several of the oldest recipes, thus achieves a blend which smells rich & warm, & which embodies the 'spirit' of the original.
