Each book covers a single lessons subjects, but has a 'Further Information' and 'Answers' section at the back, based on our responses to students over the many years we have

run the Wicca Course. However this does not mean that there is ever a straight 'right' or 'wrong' answer to these questions.

The idea is to help you awaken your own inherent Witchy powers and learn to use your own magic.

You are going to get the most out of these books if you follow the instructions carefully, AND DO THE WORK.

The Raven Wicca Course has always been envisaged as a PRACTICAL Course where you USE the information you are given
