Beautiful additions to any Spell Work, Meditation, Charm Bag or Pouch. We believe that we offer one of the most comprehensive ranges of crystals and Gemstones gathered from all corners of the Earth - and beyond.

Stones are usually tumble polished random shapes, or natural chunks of rock and crystal and because of this all sizes are approximate **UNDRILLED** stones are beautifully tumble polished, silky smooth and very tactile

DRILLED stones are usually baroque, tumble polished chips, unless otherwise stated (e.g. 'Spherical') with a hole
